- Data-Driven Design | Analytics Tools (Google Analytics, Hotjar) | Heuristic Evaluation | Usability Audits | Competitive Analysis | User Feedback Collection | Iterative Design

WORK EXPERIENCE

Valhalla Cybernetics   Remote, New Mexico, United States
UI/UX Designer and Frontend Developer Intern   **January 2024– April 2024**

- Collaborated with senior designers to drive the UI/UX design process for hospital admin dashboards, incorporating user research, surveys, and usability testing to refine design decisions.
- Designed wireframes and low-fidelity prototypes for critical features such as appointment scheduling and doctor allocation, ensuring alignment with user needs and business goals.
- Developed and optimized interactive UI components, significantly enhancing the overall user experience and operational efficiency of the hospital admin dashboard.
- Produced detailed design documentation and style guides to maintain design consistency and scalability across the platform.

Center for Dalit Women   Kathmandu, Nepal
Jr. Product Designer   **January 2021 – June 2022**

- Led the design and development of training materials for the *She Leads Nepal* project, focused on increasing women's political participation and leadership roles at the community level.
- Designed user-centered materials, including presentations, handouts, and digital content, to support leadership training and ensure accessibility and engagement for diverse participants.
- Ensured brand consistency across promotional materials and website updates, enhancing the impact and reach of the organization's initiatives.
- Conducted user research and gathered feedback from participants to inform iterative design improvements, ensuring training materials aligned with user needs and enhanced learning outcomes.
- Designed infographics and visual reports to communicate project results and progress to internal and external stakeholders, effectively supporting advocacy for women's leadership initiatives.
- Crafted visually compelling graphics for social media campaigns and outreach, contributing to a 25% increase in engagement for the organization's women's empowerment programs.

Three Monks Pvt. Ltd   Kathmandu, Nepal
Java Developer Intern   **April 2019 – July 2019**

- Developed backend functionalities for "Bidhana", a medical supplies delivery app, using Spring Boot

and optimized RESTful APIs for efficient data handling.

- Managed SQL databases for secure data storage and retrieval, ensuring smooth communication between front-end and back-end components.
- Collaborated with front-end developers and conducted code reviews to enhance app performance, scalability, and reliability.

TRAININGS/CERTIFICATIONS

UX Design (Bootcamp)

Career Foundry   **January 2023 – November 2024**

- Developed and refined skills in user research, wireframing, and information architecture through hands-on projects, including the creation of Bhachat, an e-wallet application.
- Designed and implemented user interfaces for Bhachat, ensuring seamless cross-device usability by adapting mobile features for desktop and vice versa.
- Gained mentorship from UX professionals, enhancing expertise in creating user-centric designs and optimizing user experience.
- Conducted usability testing and iterative design improvements for Bhachat, resulting in a user-friendly and effective e-wallet application.

Foundations of User Experience (UX) Design

- **Coursera -** [Credentials](#)

EDUCATION

San Francisco Bay University   Fremont, California, USA

Master of Science in Computer Science (MSCS)   **January 2023 – December 2024**
